

(a) Repeated runs, D1, convergent block

Shaded band: the run-to-run envelope of 3.9 mm peak to peak, carried into the lower row.
DoG + HardNet, DISK and LoFTR were not repeated.

(b) Repeated runs, D2, near-nadir block**(c) Into the surface, D1, convergent block**

n = 7 configurations
surface systematic: $\rho = +0.79$, 4/21 inverted
surface local: $\rho = +0.93$, 2/21 inverted

(d) Into the surface, D2, near-nadir block

n = 6 configurations
surface systematic: $\rho = +0.83$, 2/15 inverted
surface local: $\rho = +0.94$, 1/15 inverted
